North Carolina State College of Agriculture and Engineering, North Carolina Department of Agriculture, North Carolina Experiment Station, and United States Department of Agriculture, Co-operating

AGRICULTURAL EXTENSION SERVICE

B. W. KILGORE, Director, Raleigh and West Raleigh

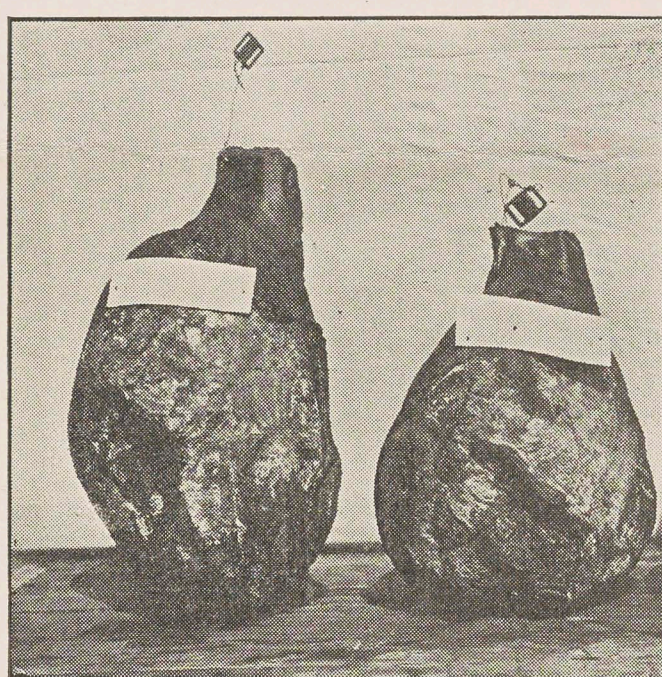

GROW MORE HOGS

Why?

1. Because there is a world-wide shortage of pork and lard
2. Because the Government asks us to help in supplying the demand
3. Because hog raising is more profitable than ever before. There is money in pork.
4. Because hog raising will help in meeting the farm labor shortage

Well-cured Hams Cut the Home Meat Bill

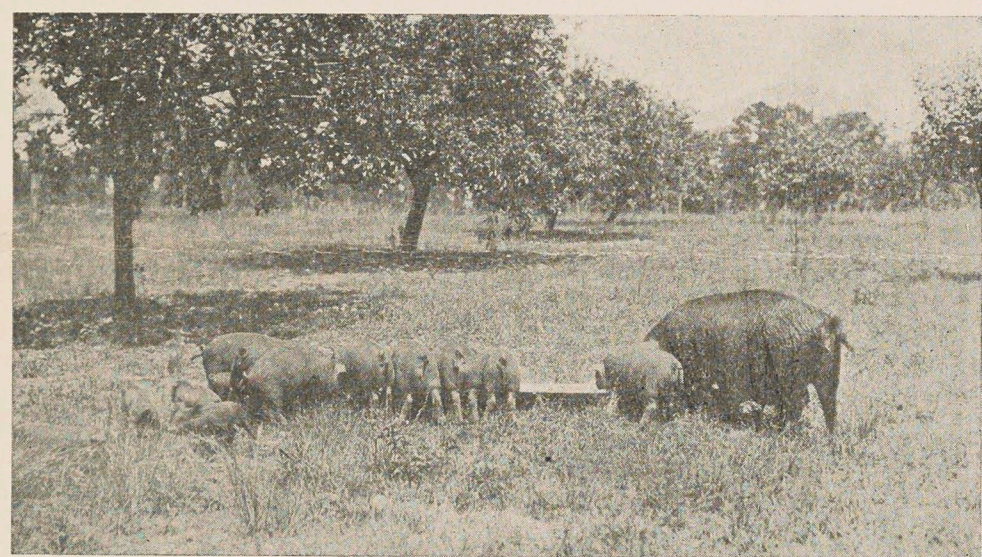

Good Bacon is the True Friend of the Soldier

Some Recent Bulletins and Circulars on Feeding and Raising Hogs

- Experiment Station Circular No. 24—"Soybean Pastures for Hogs."
- Experiment Station Circular No. 25—"Feeding the Sow and Suckling Pigs."
- Experiment Station Circular No. 29—"Feeding Skim-milk, Buttermilk and Whey to Hogs."
- Farmers' Bulletin No. 411—"Feeding Hogs in the South."
- Extension Circular No. 4—"Curing Meat on the Farm."
- Extension Circular No. 33—"Hog Houses and Equipment."
- Extension Circular No. 42—"The Sow and Her Two Litters of Pigs."

ALL AVAILABLE ON APPLICATION

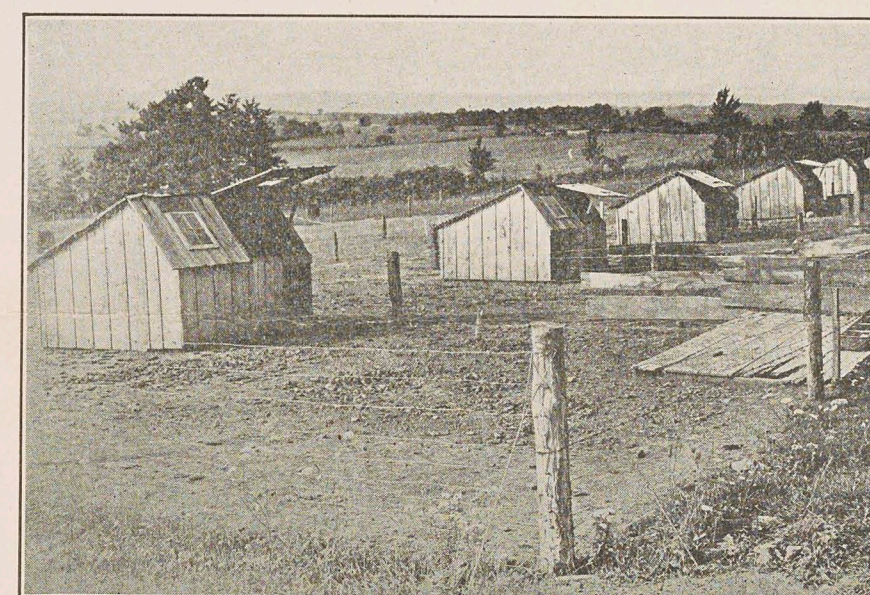

TALK TO YOUR COUNTY AGENT ABOUT HOG PRODUCTION

The Good Brood Sow Will Produce Two Litters Each Year. Keep Her Busy

Protect the Hogs from Cholera by Proper Vaccination

Colony Hog Houses Furnish Needed Shelter

How?

1. By saving all gilts suitable for breeding
2. By breeding all sows and gilts for early spring litters
3. By saving all fall pigs through proper care during winter, providing them dry, warm beds
4. Save hogs from disease
5. Provide pastures and grazing crops for sows and pigs
6. Prevent cholera by the serum inoculation
7. Kill lice by using crude oil, fuel oil, or coal tar dips
8. Prevent worms by using the following charcoal mixture: Charcoal, 1 gallon; hardwood ashes, 1 gallon; salt, 1 pound; air-slacked lime, 1 pound; sulphur, 1 pound; copperas, 1 pound

To Make Cheap Pork, Furnish Plenty of Grazing

The A-Shaped Colony Hog House. An Inexpensive But Valuable Shelter

Advantages of North Carolina For Pork Production

- May raise two litters per sow per year
- Long growing season
- Mild Climatic Conditions
- Many pastures and grazing crops
- Much cheap land available
- No expensive equipment required
- Quick returns are possible
- Small investment necessary
- Good profits may be made

North Carolina Needs More PORK

If we are to feed our people, our armies, and assist in feeding our allies, we must raise more hogs than we raised last year. Our Government is asking North Carolina to increase her number of hogs 10 per cent.
